

Abrasive Liquid Dewatering Vertical Slurry Pump Chemical with Spare Parts

Our Product Introduction

Basic Information

- Place of Origin: Sichuan, China
- Brand Name: horizontal-slurrypump.com
- Certification: ISO9001
- Model Number: OEM
- Minimum Order Quantity: 1 set
- Price: USD 500-5000/set
- Packaging Details: Free Fumigation Export Wooden Box
- Delivery Time: 25 working days after receiveing advance payment
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram, Paypal
- Supply Ability: 300 sets per month

Product Specification

- Flow: 6 ~ 364m³ / H
- Head: 6 58m
- Material: Corrosive Resistance Material
- Color: Customized
- Flange: Customized
- Application: Sewage
- Voltage: 380V/660V/1140V
- Motor: 100% Copper Wire Sewage Water Basin Sump Pump
- Product Name: Submerged Slurry Pump
- Highlight: **vertical sump pump**

Product Description

Abrasive Liquid Dewatering Vertical Slurry Pump Chemical Pump with Spare Parts

Parameter Data

Name	ZJL-series Vertical Slurry Pump
Head	4 ~ 60 m
Capacity	6 ~ 364m³/h
Discharge Size	40mm~200mm
Inlet Size	50mm~250mm
Maximal Efficiency	70%
NPSH	1.4m~3.5m
Allowable Max Motor Power	315 kw
Diameter	200mm~470mm

Product Summary

Description

ZJL-series vertical slurry pumps are single stage single-suction centrifugal slurry pump. ZJL-series pumps are in accordance with theory of two-phase fluids and they are designed according to the principle of minimizing the total loss. Geometrical shape of its flow passage components is suitable for flow condition of medium. In this way, the hydraulic loss among parts where eddy and impacting occur is reduced so that abrasion of flow passage components is reduced; water efficiency is increased; running noises and vibration are reduced. High-chrome alloy, which has high wear resistance, corrosion resistance and impact resistance, is used for flow passage components to improve service life.

Pump Features:

- The wear parts are made of high-chrome alloy of abrasion resistance.
- High efficiency and energy efficiency.
- Light weight and long service life time.
- Rational construction and reliable operation.
- Lower noise and vibration of the pump translates into improved hydraulic efficiency.

Widely Applications:

1. Many kinds of minings,such as gold mining,copper mining,coal mining,iron mining, tin mining, sand mining, and so on.
- 2.Many kinds of factories, such as alumina factory,coal factory, suger factory,chemical factory,water treatment factory.cement factory and so on.
- 3.Mineral , river sand dredging,sand booster application, Mineral processing, and dewatering work.

Structure

1	Volute casing	2	support	3	Motor base
4	Impeller	5	Left support plate	6	Discharge pipe
7	Rear liner plate	8	Bearing body	9	Right support plate
